

Last Watch

© Andrew McKay

*Watching the last watch roll by
Watching the last watch roll by
Dawn is breaking and painting the sky
And we're watching the last watch roll by*

It's darkest before the dawn
Stillest before the storm
There's work to be done before we turn for home,
But we're watching the last watch roll by
(Chorus)

There's a time to sign on for the trip
There's a time to be leaving your ship
A time to come on, and a time to be gone
And we're watching the last watch roll by
(Chorus)

There's a time to set off and to roam
There's a time to be turning for home
There's a time for "Good luck" and a time for "Good bye"
And we're watching the last watch roll by
(Chorus)

When you're young you can work way up high
When you're older, those jobs pass you by
From now on I'll be found with both feet on the ground
And we're watching the last watch roll by
*Watching the last watch roll by
Watching the last watch roll by
Dawn is breaking and painting the sky
And we're watching the last watch roll by*
